SUBJECT: SECOM Directory

STAT

On 26 April 1985, an updated directory of SECOM and its subcommittees and working groups was disseminated via SECOM-D-134. An avalanche of changes to the new directory followed immediately. I would appreciate it if you would ensure that all changes in representation to SECOM elements are reported immediately to the SECOM Staff. We have the data on a word processor. With your cooperation, we can produce an up-to-date directory on the first try. Your timely input can make a tremendous difference, both in accuracy and level of effort to produce directories. Please help.
